Creosalus, Inc (Advanced ChemTech) www.AdvancedChemTech.com SAFETY DATA SHEET

Revision Date 03/14/2020

1.1	Product identifiers			
	Product name	: Amino-PEG4-acid		
	Product Number	: MDP244		
	CAS No.	: 663921-15-1		
	Brand	: Advanced ChemTech		
.2		substance or mixture and uses advised against		
	Identified uses	: Laboratory chemicals, Manufacture of substances		
1.3	Details of the supplier of the safety data sheet			
	Company	: Creosalus, Inc.		
		5609 Fern Valley Rd, Louisville, KY 40228 USA		
	Telephone	: +1 800-456-1403		
	Fax	: +1 502-968-1000		
1.4	Emergency telephone number	: +1 800-424-9300 Chemtrec		
2. HAZ	ARDS IDENTIFICATION			
2.1	Classification of the substance	or mixture: Not classified		
2.2		precautionary statements: No known significant effects or critical hazards.		
2.3		d (HNOC) or not covered by GHS - none		
	POSITION/INFORMATION ON INGR	EDIENTS		
3.1	Substances	1. 0. (0. [0. (0. Aming atheway) atheway atheway atheway		
	Synonym:	: 3-(2-{2-[2-(2-Amino-ethoxy)-ethoxy]-ethoxy}-ethoxy)- propionic acid		
	CAS No. Formula	: 663921-15-1		
		$: C_{11}H_{23}NO_6$		
	Molecular Weight	: 265.3 g/mole		
		ige is to protect confidentiality or is due to batch variation. There are no additional ingredients present		
	environment and hence require re	ge of the supplier and in the concentrations applicable, are classified as hazardous to health or the		
	environment and hence require re			
I. FIRS	T AID MEASURES			
4.1	Description of first aid measure			
	If inhaled: Remove victim to fresh	n air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.		
	If inhaled: Remove victim to fresh In case of skin contact: Flush co	n air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.		
	If inhaled: Remove victim to fresh In case of skin contact: Flush co symptoms occur.	n air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. Intaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if		
	If inhaled: Remove victim to fresh In case of skin contact: Flush co symptoms occur. In case of eye contact: Immedia	n air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. ontaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if ately flush eyes with plenty of water, occasionally lifting the upper and lower		
	If inhaled: Remove victim to fresh In case of skin contact: Flush co symptoms occur. In case of eye contact: Immedia eyelids. Check for and remove an	n air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. ontaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention it ately flush eyes with plenty of water, occasionally lifting the upper and lower y contact lenses. Get medical attention if irritation occurs.		
	If inhaled: Remove victim to fresh In case of skin contact: Flush co symptoms occur. In case of eye contact: Immedia eyelids. Check for and remove an If swallowed: Wash out mouth wi	n air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. ontaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention it ately flush eyes with plenty of water, occasionally lifting the upper and lower y contact lenses. Get medical attention if irritation occurs. ith water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material		
	If inhaled: Remove victim to fresh In case of skin contact: Flush co symptoms occur. In case of eye contact: Immedia eyelids. Check for and remove an If swallowed: Wash out mouth wi has been swallowed and the expo	n air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. ontaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if ately flush eyes with plenty of water, occasionally lifting the upper and lower y contact lenses. Get medical attention if irritation occurs. Ith water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material bed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed		
	If inhaled: Remove victim to fresh In case of skin contact: Flush co symptoms occur. In case of eye contact: Immedia eyelids. Check for and remove an If swallowed: Wash out mouth wi has been swallowed and the expo do so by medical personnel. Get r	n air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. ontaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if ately flush eyes with plenty of water, occasionally lifting the upper and lower y contact lenses. Get medical attention if irritation occurs. ith water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material sed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to medical attention if symptoms occur.		
4.2	If inhaled: Remove victim to fresh In case of skin contact: Flush co symptoms occur. In case of eye contact: Immedia eyelids. Check for and remove an If swallowed: Wash out mouth wi has been swallowed and the expo do so by medical personnel. Get r Most important symptoms and	n air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. ontaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if ately flush eyes with plenty of water, occasionally lifting the upper and lower y contact lenses. Get medical attention if irritation occurs. ith water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material sed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed t medical attention if symptoms occur. effects, both acute and delayed: The most important known symptoms and effects are described in th		
4.2	If inhaled: Remove victim to fresh In case of skin contact: Flush co symptoms occur. In case of eye contact: Immedia eyelids. Check for and remove an If swallowed: Wash out mouth wi has been swallowed and the expo do so by medical personnel. Get r Most important symptoms and labeling (see section 2.2) and/or in	n air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. ontaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention it ately flush eyes with plenty of water, occasionally lifting the upper and lower y contact lenses. Get medical attention if irritation occurs. ith water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material sed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed is nedical attention if symptoms occur. effects, both acute and delayed: The most important known symptoms and effects are described in the n section 11		
	If inhaled: Remove victim to fresh In case of skin contact: Flush co symptoms occur. In case of eye contact: Immedia eyelids. Check for and remove an If swallowed: Wash out mouth wi has been swallowed and the expo do so by medical personnel. Get r Most important symptoms and labeling (see section 2.2) and/or in Indication of any immediate me	n air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. ontaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if ately flush eyes with plenty of water, occasionally lifting the upper and lower y contact lenses. Get medical attention if irritation occurs. ith water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material used person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to nedical attention if symptoms occur. effects, both acute and delayed: The most important known symptoms and effects are described in th n section 11 dical attention and special treatment needed: Notes to physician: Treat symptomatically. Contact		
1.2	If inhaled: Remove victim to fresh In case of skin contact: Flush co symptoms occur. In case of eye contact: Immedia eyelids. Check for and remove an If swallowed: Wash out mouth wi has been swallowed and the expo do so by medical personnel. Get r Most important symptoms and labeling (see section 2.2) and/or in Indication of any immediate me poison treatment specialist immediate	n air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. ontaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if ately flush eyes with plenty of water, occasionally lifting the upper and lower y contact lenses. Get medical attention if irritation occurs. ith water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material used person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed t medical attention if symptoms occur. effects, both acute and delayed: The most important known symptoms and effects are described in th n section 11 dical attention and special treatment needed: Notes to physician: Treat symptomatically. Contact diately if large quantities have been ingested or inhaled. specific treatments: No specific treatment.		
4.2 4.3	If inhaled: Remove victim to fresh In case of skin contact: Flush co symptoms occur. In case of eye contact: Immedia eyelids. Check for and remove an If swallowed: Wash out mouth wi has been swallowed and the expo do so by medical personnel. Get r Most important symptoms and labeling (see section 2.2) and/or in Indication of any immediate me poison treatment specialist immec Protection of first-aiders: No action	n air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. ontaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if ately flush eyes with plenty of water, occasionally lifting the upper and lower y contact lenses. Get medical attention if irritation occurs. ith water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material used person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed t medical attention if symptoms occur. effects, both acute and delayed: The most important known symptoms and effects are described in th n section 11 dical attention and special treatment needed: Notes to physician: Treat symptomatically. Contact		
4.2 4.3 5. FIRE	If inhaled: Remove victim to fresh In case of skin contact: Flush co symptoms occur. In case of eye contact: Immedia eyelids. Check for and remove an If swallowed: Wash out mouth wi has been swallowed and the expo do so by medical personnel. Get r Most important symptoms and labeling (see section 2.2) and/or in Indication of any immediate me poison treatment specialist immed Protection of first-aiders: No action FIGHTING MEASURES	n air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. ontaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if ately flush eyes with plenty of water, occasionally lifting the upper and lower y contact lenses. Get medical attention if irritation occurs. ith water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material used person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed t medical attention if symptoms occur. effects, both acute and delayed: The most important known symptoms and effects are described in th n section 11 dical attention and special treatment needed: Notes to physician: Treat symptomatically. Contact diately if large quantities have been ingested or inhaled. specific treatments: No specific treatment.		
1.2 1.3 5. FIRE	If inhaled: Remove victim to fresh In case of skin contact: Flush co symptoms occur. In case of eye contact: Immedia eyelids. Check for and remove an If swallowed: Wash out mouth wi has been swallowed and the expo do so by medical personnel. Get r Most important symptoms and labeling (see section 2.2) and/or in Indication of any immediate me poison treatment specialist immed Protection of first-aiders: No action FIGHTING MEASURES Extinguishing media	n air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. ontaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if ately flush eyes with plenty of water, occasionally lifting the upper and lower y contact lenses. Get medical attention if irritation occurs. ith water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material used person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to nedical attention if symptoms occur. effects, both acute and delayed: The most important known symptoms and effects are described in th n section 11 dical attention and special treatment needed: Notes to physician: Treat symptomatically. Contact diately if large quantities have been ingested or inhaled. specific treatments: No specific treatment. n shall be taken involving any personal risk or without suitable training.		
4.2 4.3 5. FIRE 5.1	If inhaled: Remove victim to fresh In case of skin contact: Flush co symptoms occur. In case of eye contact: Immedia eyelids. Check for and remove an If swallowed: Wash out mouth wi has been swallowed and the expo do so by medical personnel. Get r Most important symptoms and labeling (see section 2.2) and/or in Indication of any immediate me poison treatment specialist immed Protection of first-aiders: No action FIGHTING MEASURES Extinguishing media Suitable extinguishing media: L	n air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. ontaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if ately flush eyes with plenty of water, occasionally lifting the upper and lower y contact lenses. Get medical attention if irritation occurs. ith water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material used person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to medical attention if symptoms occur. effects, both acute and delayed: The most important known symptoms and effects are described in the n section 11 dical attention and special treatment needed: Notes to physician: Treat symptomatically. Contact diately if large quantities have been ingested or inhaled. specific treatments: No specific treatment. In shall be taken involving any personal risk or without suitable training. Jse an extinguishing agent suitable for the surrounding fire.		
4.2 4.3 5. FIRE 5.1 5.2	If inhaled: Remove victim to fresh In case of skin contact: Flush co symptoms occur. In case of eye contact: Immedia eyelids. Check for and remove an If swallowed: Wash out mouth wi has been swallowed and the expo do so by medical personnel. Get r Most important symptoms and labeling (see section 2.2) and/or in Indication of any immediate me poison treatment specialist immed Protection of first-aiders: No action FIGHTING MEASURES Extinguishing media Suitable extinguishing media: L Special hazards arising from the	n air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. Intaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if ately flush eyes with plenty of water, occasionally lifting the upper and lower y contact lenses. Get medical attention if irritation occurs. Ith water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material used person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed t nedical attention if symptoms occur. effects, both acute and delayed: The most important known symptoms and effects are described in th n section 11 dical attention and special treatment needed: Notes to physician: Treat symptomatically. Contact diately if large quantities have been ingested or inhaled. specific treatments: No specific treatment. n shall be taken involving any personal risk or without suitable training. Jse an extinguishing agent suitable for the surrounding fire. e substance or mixture: In a fire or if heated, a pressure increase will occur and the container may burst		
4.2 4.3 5. FIRE 5.1 5.2 5.3	If inhaled: Remove victim to fresh In case of skin contact: Flush co symptoms occur. In case of eye contact: Immedia eyelids. Check for and remove an If swallowed: Wash out mouth wi has been swallowed and the expo do so by medical personnel. Get r Most important symptoms and labeling (see section 2.2) and/or in Indication of any immediate me poison treatment specialist immed Protection of first-aiders: No action FIGHTING MEASURES Extinguishing media Suitable extinguishing media: L Special hazards arising from th Advice for firefighters: Wear sel	n air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. ontaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if ately flush eyes with plenty of water, occasionally lifting the upper and lower y contact lenses. Get medical attention if irritation occurs. ith water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material sed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed t nedical attention if symptoms occur. effects, both acute and delayed: The most important known symptoms and effects are described in th n section 11 dical attention and special treatment needed: Notes to physician: Treat symptomatically. Contact diately if large quantities have been ingested or inhaled. specific treatments: No specific treatment. n shall be taken involving any personal risk or without suitable training. Jes an extinguishing agent suitable for the surrounding fire. e substance or mixture: In a fire or if heated, a pressure increase will occur and the container may burst f contained breathing apparatus for fire fighting if necessary.		
4.2 4.3 5. FIRE 5.1 5.2 5.3	If inhaled: Remove victim to fresh In case of skin contact: Flush co symptoms occur. In case of eye contact: Immedia eyelids. Check for and remove an If swallowed: Wash out mouth wi has been swallowed and the expo do so by medical personnel. Get r Most important symptoms and labeling (see section 2.2) and/or in Indication of any immediate me poison treatment specialist immed Protection of first-aiders: No action FIGHTING MEASURES Extinguishing media Suitable extinguishing media: L Special hazards arising from the	n air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. ontaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if ately flush eyes with plenty of water, occasionally lifting the upper and lower y contact lenses. Get medical attention if irritation occurs. ith water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material sed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed t nedical attention if symptoms occur. effects, both acute and delayed: The most important known symptoms and effects are described in th n section 11 dical attention and special treatment needed: Notes to physician: Treat symptomatically. Contact diately if large quantities have been ingested or inhaled. specific treatments: No specific treatment. n shall be taken involving any personal risk or without suitable training. Jes an extinguishing agent suitable for the surrounding fire. e substance or mixture: In a fire or if heated, a pressure increase will occur and the container may burst f contained breathing apparatus for fire fighting if necessary.		
4.2 4.3 5. FIRE 5.1 5.2 5.3 5.4	If inhaled: Remove victim to fresh In case of skin contact: Flush co symptoms occur. In case of eye contact: Immedia eyelids. Check for and remove an If swallowed: Wash out mouth wi has been swallowed and the expo do so by medical personnel. Get r Most important symptoms and labeling (see section 2.2) and/or in Indication of any immediate me poison treatment specialist immed Protection of first-aiders: No action FIGHTING MEASURES Extinguishing media Suitable extinguishing media: L Special hazards arising from th Advice for firefighters: Wear sel Further information: No data available	n air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. ontaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if ately flush eyes with plenty of water, occasionally lifting the upper and lower y contact lenses. Get medical attention if irritation occurs. ith water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material sed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed t nedical attention if symptoms occur. effects, both acute and delayed: The most important known symptoms and effects are described in th n section 11 dical attention and special treatment needed: Notes to physician: Treat symptomatically. Contact diately if large quantities have been ingested or inhaled. specific treatments: No specific treatment. n shall be taken involving any personal risk or without suitable training. Jes an extinguishing agent suitable for the surrounding fire. e substance or mixture: In a fire or if heated, a pressure increase will occur and the container may burst f contained breathing apparatus for fire fighting if necessary.		
4.2 4.3 5. FIRE 5.1 5.2 5.3 5.4 6. ACCI	If inhaled: Remove victim to fresh In case of skin contact: Flush co symptoms occur. In case of eye contact: Immedia eyelids. Check for and remove an If swallowed: Wash out mouth wi has been swallowed and the expo do so by medical personnel. Get r Most important symptoms and labeling (see section 2.2) and/or in Indication of any immediate me poison treatment specialist immed Protection of first-aiders: No action FIGHTING MEASURES Extinguishing media Suitable extinguishing media: U Special hazards arising from th Advice for firefighters: Wear sel Further information: No data ava IDENTAL RELEASE MEASURES	n air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. Intaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if ately flush eyes with plenty of water, occasionally lifting the upper and lower y contact lenses. Get medical attention if irritation occurs. Ith water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material used person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to nedical attention if symptoms occur. effects, both acute and delayed: The most important known symptoms and effects are described in the n section 11 dical attention and special treatment needed: Notes to physician: Treat symptomatically. Contact diately if large quantities have been ingested or inhaled. specific treatments: No specific treatment. n shall be taken involving any personal risk or without suitable training. Jse an extinguishing agent suitable for the surrounding fire. e substance or mixture: In a fire or if heated, a pressure increase will occur and the container may burst f contained breathing apparatus for fire fighting if necessary. ailable		
4.2 4.3 5. FIRE 5.1 5.2 5.3 5.4	If inhaled: Remove victim to fresh In case of skin contact: Flush co symptoms occur. In case of eye contact: Immedia eyelids. Check for and remove an If swallowed: Wash out mouth wi has been swallowed and the expo do so by medical personnel. Get r Most important symptoms and labeling (see section 2.2) and/or in Indication of any immediate me poison treatment specialist immed Protection of first-aiders: No action FIGHTING MEASURES Extinguishing media Suitable extinguishing media: L Special hazards arising from th Advice for firefighters: Wear sel Further information: No data avai IDENTAL RELEASE MEASURES Personal Precautions, protectiv	n air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. Intaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if ately flush eyes with plenty of water, occasionally lifting the upper and lower y contact lenses. Get medical attention if irritation occurs. Ith water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material used person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to nedical attention if symptoms occur. effects, both acute and delayed: The most important known symptoms and effects are described in the n section 11 dical attention and special treatment needed: Notes to physician: Treat symptomatically. Contact diately if large quantities have been ingested or inhaled. specific treatments: No specific treatment. n shall be taken involving any personal risk or without suitable training. Jse an extinguishing agent suitable for the surrounding fire. e substance or mixture: In a fire or if heated, a pressure increase will occur and the container may burst f contained breathing apparatus for fire fighting if necessary. ailable re equipment, and emergency procedure: For non-emergency personnel: No action shall be taken		
4.2 4.3 5. FIRE 5.1 5.2 5.3 5.4 6. ACCI	If inhaled: Remove victim to fresh In case of skin contact: Flush co symptoms occur. In case of eye contact: Immedia eyelids. Check for and remove an If swallowed: Wash out mouth wi has been swallowed and the expo do so by medical personnel. Get r Most important symptoms and labeling (see section 2.2) and/or in Indication of any immediate me poison treatment specialist immed Protection of first-aiders: No action FIGHTING MEASURES Extinguishing media Suitable extinguishing media: L Special hazards arising from th Advice for firefighters: Wear sel Further information: No data ava IDENTAL RELEASE MEASURES Personal Precautions, protectiv involving any personal risk or with	n air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. Intaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if ately flush eyes with plenty of water, occasionally lifting the upper and lower y contact lenses. Get medical attention if irritation occurs. Ith water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material ised person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to nedical attention if symptoms occur. effects, both acute and delayed: The most important known symptoms and effects are described in the n section 11 dical attention and special treatment needed: Notes to physician: Treat symptomatically. Contact diately if large quantities have been ingested or inhaled. specific treatments: No specific treatment. n shall be taken involving any personal risk or without suitable training. Jes an extinguishing agent suitable for the surrounding fire. e substance or mixture: In a fire or if heated, a pressure increase will occur and the container may burst f contained breathing apparatus for fire fighting if necessary. ailable re equipment, and emergency procedure: For non-emergency personnel: No action shall be taken out suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from		
4.2 4.3 5. FIRE 5.1 5.2 5.3 5.4 6. ACCI	If inhaled: Remove victim to fresh In case of skin contact: Flush co symptoms occur. In case of eye contact: Immedia eyelids. Check for and remove an If swallowed: Wash out mouth wi has been swallowed and the expo do so by medical personnel. Get r Most important symptoms and labeling (see section 2.2) and/or in Indication of any immediate me poison treatment specialist immed Protection of first-aiders: No action FIGHTING MEASURES Extinguishing media Suitable extinguishing media: L Special hazards arising from th Advice for firefighters: Wear sel Further information: No data ava IDENTAL RELEASE MEASURES Personal Precautions, protectiv involving any personal risk or with entering. Do not touch or walk thro	n air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. ontaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if ately flush eyes with plenty of water, occasionally lifting the upper and lower y contact lenses. - 7.2 Conditions for safe storage, including any incompatibilities: Do not store above the following temperature: -20°C (-4°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.
- 7.3 Specific end use(s): Apart from the uses mentioned in section 1.2 no other specific uses are stipulated

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters 8.1

Components with workplace control parameters: Contains no substances with occupational exposure limit values.

8.2 Exposure controls

Appropriate engineering controls: Good general ventilation should be sufficient to control worker exposure to airborne contaminants. Personal protective equipment

Eye/face protection: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

Skin protection: Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

Body Protection: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection: Use a properly fitted, air-purifying or air-fed respiratorcomplying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Control of environmental exposure: Do not let product enter drains.

9. PHYSICAL AND CHEMICAL PROPERTIES

9.1

9.2

Information on basic physical and chemical properties			
a) Appearance	Form: White to Off-White solid		
b) Odor	no data available		
c) Odor Threshold	no data available		
d) pH	no data available		
e) Melting point/freezing point	no data available		
f) Initial boiling point and boiling range	no data available		
g) Flash point	no data available		
 b) Evaporation rate 	no data available		
i) Flammability (solid, gas)	no data available		
j) Upper/lower flammability or explosive limits	no data available		
k) Vapor pressure	no data available		
I) Vapor density	no data available		
m) Relative density	no data available		
n) Water solubility	no data available		
 Partition coefficient: n- octanol/water 	no data available		
p) Auto-ignition temperature	no data available		
 q) Decomposition temperature 	no data available		
r) Viscosity	no data available		
 s) Explosive properties 	no data available		
t) Oxidizing properties	no data available		
Other safety information:	no data available		

10. STABILITY AND REACTIVITY

Reactivity: No data available 10.1

- Chemical stability: Stable under recommended storage conditions. 10.2
- 10.3 Possibility of hazardous reactions: No data available
- 10.4 Conditions to avoid: No data available
- 10.5 Incompatible materials: No data available
- 10.6 Hazardous decomposition products: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

11. TOXICOLOGICAL INFORMATION 11.1

Information on toxicological effects

Acute toxicity: No data available

Inhalation: No data available

Dermal: No data available

Skin corrosion/irritation: No data available Serious eye damage/eye irritation: No data available Respiratory or skin sensitization: No data available

Germ cell mutagenicity: No data available Carcinogenicity:

No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed IARC: human carcinogen by IARC.

ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

- NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.
- OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

© CREOSALUS, INC. ALL RIGHTS RESERVED

Reproductive toxicity: No data available

Specific target organ toxicity - single exposure: No data available

Specific target organ toxicity - repeated exposure: No data available Aspiration hazard: No data available

Additional Information: RTECS: Not available, to the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

12. ECOLOGICAL INFORMATION 12.1

- Toxicity: No data available 12.2 Persistence and degradability: No data available
- Bioaccumulative potential: No data available 12.3
- 12.4 Mobility in soil: No data available
- 12.5

Results of PBT and vPvB assessment: PBT/vPvB assessment not available as chemical safety assessment not required/not conducted 12.6 Other adverse effects: No data available

13. DISPOSAL CONSIDERATIONS

Waste treatment methods 13.1

Product: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any byproducts should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains, and severs. Contaminated packaging: Dispose of as unused product.

14. TRANSPORT INFORMATION

DOT (US) Not dangerous goods IMDG Not dangerous goods ΙΑΤΑ Not dangerous goods

15. REGULATORY INFORMATION

SARA 302 Components: SARA 302: No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302. SARA 313 Components: SARA 313: This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

SARA 311/312 Hazards: No SARA Hazards

Massachusetts Right to Know Components: No components are subject to the Massachusetts Right to Know Act.

Pennsylvania Right to Kr	now Components					
Amino-PEG4-acid	CAS-No.	Revision Date
