

SAFETY DATA SHEET

Revision Date 08/04/2023

I. PROE I.1	DUCT AND COMPANY IDENTIFIC	ATION				
1.1						
	Product identifiers					
	Product name	: AOP				
	Product Number	: RC8702				
	Brand	: Advanced ChemTech				
	CAS-No.	: 156311-85-2				
•						
1.2 Relevant identified uses of the substance or mixture and uses advised against						
	Identified uses	: Laboratory chemicals, Manufacture of substances				
.3	Details of the supplier of the s	safety data sheet				
	Company	: Advanced ChemTech				
	,	5609 Fern Valley Rd, Louisville, KY 40228 USA				
	Telephone	: +1 833-317-5620				
	Fax	: +1 502-968-1000				
.4	Emergency telephone numbe	r : +1 800-424-9300 Chemtrec				
HAZA	ARDS IDENTIFICATION					
1	Classification of the substance	ce or mixture				
2.1	Classification of the substance or mixture:					
	GHS Classification in accordance with 29 CFR 1910 (OSHA HCS)					
	Flammable solids (Category 1),					
	Skin irritation (Category 2), H31					
	Specific target organ toxicity - single exposure (Category 3), Respiratory system, H335					
		ents mentioned in this Section, see Section 16				
2	GHS Label elements, includin					
-	Pictogram	y producional y statements.				
	 < 					
	Signal Word:	Danger				
		Danger				
	Hazard statement(s)					
	H228	Flammable solid.				
	H315	Causes skin irritation.				
	H315 H335	Causes skin irritation. May cause respiratory irritation				
	H335	Causes skin irritation. May cause respiratory irritation.				
	H335 Precautionary statement(s)	May cause respiratory irritation.				
	H335 Precautionary statement(s) P210	May cause respiratory irritation. Keep away from heat/sparks/open flames/hot surfaces. No smoking.				
	H335 Precautionary statement(s)	May cause respiratory irritation.				
	H335 Precautionary statement(s) P210 P240	May cause respiratory irritation. Keep away from heat/sparks/open flames/hot surfaces. No smoking. Ground/bond container and receiving equipment.				
	H335 Precautionary statement(s) P210 P240 P241	May cause respiratory irritation. Keep away from heat/sparks/open flames/hot surfaces. No smoking. Ground/bond container and receiving equipment. Use explosion-proof electrical/ ventilating/ lighting/ equipment.				
	H335 Precautionary statement(s) P210 P240 P241 P261	May cause respiratory irritation. Keep away from heat/sparks/open flames/hot surfaces. No smoking. Ground/bond container and receiving equipment. Use explosion-proof electrical/ ventilating/ lighting/ equipment. Avoid breathing dust/ fume/ gas/ mist/ vapours/ spray.				
	H335 Precautionary statement(s) P210 P240 P241 P261 P264	May cause respiratory irritation. Keep away from heat/sparks/open flames/hot surfaces. No smoking. Ground/bond container and receiving equipment. Use explosion-proof electrical/ ventilating/ lighting/ equipment. Avoid breathing dust/ fume/ gas/ mist/ vapours/ spray. Wash skin thoroughly after handling.				
	H335 Precautionary statement(s) P210 P240 P241 P261	May cause respiratory irritation. Keep away from heat/sparks/open flames/hot surfaces. No smoking. Ground/bond container and receiving equipment. Use explosion-proof electrical/ ventilating/ lighting/ equipment. Avoid breathing dust/ fume/ gas/ mist/ vapours/ spray.				
	H335 Precautionary statement(s) P210 P240 P241 P261 P264	May cause respiratory irritation. Keep away from heat/sparks/open flames/hot surfaces. No smoking. Ground/bond container and receiving equipment. Use explosion-proof electrical/ ventilating/ lighting/ equipment. Avoid breathing dust/ fume/ gas/ mist/ vapours/ spray. Wash skin thoroughly after handling.				
	H335 Precautionary statement(s) P210 P240 P241 P261 P261 P264 P271 P280	May cause respiratory irritation. Keep away from heat/sparks/open flames/hot surfaces. No smoking. Ground/bond container and receiving equipment. Use explosion-proof electrical/ ventilating/ lighting/ equipment. Avoid breathing dust/ fume/ gas/ mist/ vapours/ spray. Wash skin thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear protective gloves/ eye protection/ face protection.				
	H335 Precautionary statement(s) P210 P240 P241 P261 P264 P271 P280 P302 + P352	May cause respiratory irritation. Keep away from heat/sparks/open flames/hot surfaces. No smoking. Ground/bond container and receiving equipment. Use explosion-proof electrical/ ventilating/ lighting/ equipment. Avoid breathing dust/ fume/ gas/ mist/ vapours/ spray. Wash skin thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear protective gloves/ eye protection/ face protection. IF ON SKIN: Wash with plenty of soap and water.	able for breathing C			
	H335 Precautionary statement(s) P210 P240 P241 P261 P261 P264 P271 P280	May cause respiratory irritation. Keep away from heat/sparks/open flames/hot surfaces. No smoking. Ground/bond container and receiving equipment. Use explosion-proof electrical/ ventilating/ lighting/ equipment. Avoid breathing dust/ fume/ gas/ mist/ vapours/ spray. Wash skin thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear protective gloves/ eye protection/ face protection. IF ON SKIN: Wash with plenty of soap and water. 4. FIRST AID MEASURES

4.1 Description of first aid measures

Description of first aid measures General advice: Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area. Hydrofluoric (HF) acid burns require immediate and specialized first aid and medical treatment. Symptoms may be delayed up to 24 hours depending on the concentration of HF. After decontamination with water, further damage can occur due to penetration/absorption of the fluoride ion. Treatment should be directed toward binding the fluoride ion as well as the effects of exposure. Skin exposures can be treated with a 2.5% calcium gluconate gel repeated until burning ceases. More serious skin exposures may require subcutaneous calcium gluconate except for digital areas unless the physician is experienced in this technique, due to the potential for tissue injury from increased pressure. Absorption can readily occur through the subungual areas and should be considered when undergoing decontamination. Prevention of absorption of the fluoride ion in cases of ingestion can be obtained by giving milk, chewable calcium carbonate tablets or Milk of Magnesia to conscious

SAFETY DATA SHEET

victims. Conditions such as hypocalcemia, hypomagnesemia and cardiac arrhythmias should be monitored for, since they can occur after exposure

If inhaled: If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

In case of skin contact: Wash off with soap and plenty of water. Consult a physician. First, treat with calcium gluconate paste.

In case of eye contact: Flush eyes with water as a precaution.

If swallowed: Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician

4.2 Most important symptoms and effects, both acute and delayed: The most important known symptoms and effects are described in the labeling (see section 2.2) and/or in section 11

4.3 Indication of any immediate medical attention and special treatment needed: No data available

5. FIREFIGHTING MEASURES

Extinguishing media 5.1

- Suitable extinguishing media: Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.
- Special hazards arising from the substance or mixture: No data available 5.2
- 5.3 5.4 Advice for firefighters: Wear self contained breathing apparatus for fire fighting if necessary.
- Further information: Use water spray to cool unopened containers.

6. ACCIDENTAL RELEASE MEASURES

- Personal Precautions, protective equipment, and emergency procedure: Use personal protective equipment. Avoid dust formation. 6.1 Avoid breathing vapours, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Avoid breathing dust. For personal protection see section 8.
- Environmental precautions: Prevent further leakage or spillage, if safe to do so. Do not let product enter drains. 6.2
- Methods and materials for containment and cleaning up: Sweep up and shovel. Contain spillage, and then collect with an electrically 6.3 protected vacuum cleaner or by wetbrushing and place in container for disposal according to local regulations (see section 13). Keep in suitable, closed containers for disposal. Contain spillage, pick up with an electrically protected vacuum cleaner or by wet-brushing and transfer to a container for disposal according to local regulations (see section 13).
- 6.4 Reference to other sections: For disposal see section 13.

7. HANDLING AND STORAGE

- Precautions for safe handling: Avoid contact with skin and eyes. Avoid formation of dust and aerosols. Further processing of solid 7.1 materials may result in the formation of combustible dusts. The potential for combustible dust formation should be taken into consideration before additional processing occurs. Provide appropriate exhaust ventilation at places where dust is formed. Keep away from sources of ignition - No smoking. Take measures to prevent the build up of electrostatic charge. For precautions see section 2.2.
- Conditions for safe storage, including any incompatibilities: Keep container tightly closed in a dry and well-ventilated place. 7.2 Recommended storage temperature: 2 - 8 °C. Keep in a dry place. Storage class (TRGS 510): Flammable solid hazardous materials Specific end use(s): Apart from the uses mentioned in section 1.2 no other specific uses are stipulated 7.3

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters 8.1

Components with workplace control parameters Contains no substances with occupational exposure limit values.

Exposure controls 8.2

Appropriate engineering controls Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday

Personal protective equipment

Eye/face protection Safety glasses with side-shields conforming to EN166 Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

Skin protection Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

Body Protection Impervious clothing, Flame retardant antistatic protective clothing. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

Respiratory protection Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type N100 (US) or type P3 (EN 143) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU)

Control of environmental exposure Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

9. PHYSICAL AND CHEMICAL PROPERTIES

9.1	Information on basic physical and chemical properties				
	a) Appearance	Form: White to Off-White powder			
	b) Odor	no data available			
	c) Odor Threshold	no data available			
	d) pH	no data available			
	 e) Melting point/freezing point 	no data available			
	f) Initial boiling point and boiling range	no data available			
	g) Flash point	no data available			
	 h) Evaporation rate 	no data available			
	i) Flammability (solid, gas)	no data available			
	 j) Upper/lower flammability or explosive limits 	no data available			
	k) Vapor pressure	no data available			
	I) Vapor density	no data available			
	m) Relative density	no data available			
	n) Water solubility	no data available			
	 o) Partition coefficient: n- octanol/water 	no data available			
	p) Auto-ignition temperature	no data available			
	q) Decomposition temperature	no data available			
	r) Viscosity	no data available			

SAFETY DATA SHEET

no data available no data available

no data available

s) Explosive properties t) Oxidizing properties

9.2 Other safety information:

10. STABILITY AND REACTIVITY

- Reactivity: No data available 10.1
- Chemical stability: Stable under recommended storage conditions. 10.2
- 10.3 Possibility of hazardous reactions: No data available
- 10.4 Conditions to avoid: Heat, flames, and sparks.
- 10.5 Incompatible materials: Strong oxidizing agents
- Hazardous decomposition products: Hazardous decomposition products formed under fire conditions. Carbon oxides, Nitrogen oxides 10.6 (NOx), Oxides of phosphorus, Hydrogen fluoride Other decomposition products - No data available In the event of fire: see section 5

11. TOXICOLOGICAL INFORMATION

Information on toxicological effects 11.1

Acute toxicity: No data available

- Inhalation: No data available
- Dermal: No data available

Skin corrosion/irritation: No data available

Serious eye damage/eye irritation: No data available

Respiratory or skin sensitization: No data available

Germ cell mutagenicity: No data available

Carcinogenicity:

- No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed IARC. human carcinogen by IARC.
- ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.
- NTP. No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.
- OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.
- Reproductive toxicity: No data available

Specific target organ toxicity - single exposure: Inhalation - May cause respiratory irritation.

- Specific target organ toxicity repeated exposure: No data available
- Aspiration hazard: No data available

Additional Information: RTECS: Not available, Fluoride ion can reduce serum calcium levels possibly causing fatal hypocalcemia. To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

12. ECOLOGICAL INFORMATION

- Toxicity: No data available 12.1
- 12.2 Persistence and degradability: No data available
- Bioaccumulative potential: No data available 12.3
- Mobility in soil: No data available 12.4
- Results of PBT and vPvB assessment: PBT/vPvB assessment not available as chemical safety assessment not required/not conducted 12.5 12.6 Other adverse effects: No data available

13. DISPOSAL CONSIDERATIONS 13.1

Waste treatment methods

Product: Burn in a chemical incinerator equipped with an afterburner and scrubber but exert extra care in igniting, as this material is highly flammable. Offer surplus and non-recyclable solutions to a licensed disposal company. Contact a licensed professional waste disposal service to dispose of this material.

Contaminated packaging: Dispose of as unused product.

14. TRANSPORT INFORMATION DOT (US)							
UN number: 1325	Class: 4.1	Packing group: II					
Proper shipping name: Fla	mmable solids, organic,		. (Tri(dimethylamino)benzotriazol-1-yloxyphosphonium hexafluorophosphate)				
Reportable Quantity (RQ):			, , , , , , , , , , , , , , , , , , , ,				
Poison Inhalation Hazard:	No						
IMDG

15. REGULATORY INFORMATION							
SARA 302 Components							
SARA 302: No chemicals i	n this material are subject	ct to the reporting requirements of	of SARA Title III, Section 302.				
SARA 313 Components							

SARA 313: This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

SARA 311/312 Hazards: Fire Hazard, Acute Health Hazard

Massachusetts Right to Know Components: No components are subject to the Massachusetts Right to Know Act. Pennsylvania Right to Know Components AOP **Revision Date**

CAS-No.
