SAFETY DATA SHEET

Revision Date 07/05/2016

4 886					
I. PRO I.1	DUCT AND COMPANY IDENTIFIC	ATION			
.1	Product identifiers				
	Product name	: H-Alaninol			
	Product Number	: YA4117	T 1		
	Brand	: Advanced Chem	n l ech		
	CAS-No.	: 2749-11-3			
1.2			ture and uses advised against		
	Identified uses : Laboratory chemicals, Manufacture of substances				
.3	Details of the supplier of the s				
	Company	: Creosalus, Inc.			
			y Rd, Louisville, KY 40228 USA		
	Telephone	: +1 800-456-140			
	Fax	: +1 502-968-100			
.4	Emergency telephone number	r : +1 800-424-930	0 Chemtrec		
, HAZ	ARDS IDENTIFICATION				
2.1	Classification of the substanc	e or mixture:			
	GHS Classification in accorda		010 (OSHA HCS)		
	Flammable liquids (Category 4),				
	Skin corrosion (Category 1B), H				
	Serious eye damage (Category				
	For the full text of the H-Stateme		s Section, see Section 16.

4. FIRST AID MEASURES 4.1 Description of

Description of first aid measures General advice: Consult a physician. Show this safety data sheet to the doctor in attendance.Move out of dangerous area. If inhaled: If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician. In case of skin contact: Wash off with soap and plenty of water. Consult a physician.

In case of eye contact: Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician Continue rinsing eyes during transport to hospital.

If swallowed: Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

© CREOSALUS, INC. ALL RIGHTS RESERVED

4.2 Most important symptoms and effects, both acute and delayed: The most important known symptoms and effects are described in the labeling (see section 2.2) and/or in section 11

4.3 Indication of any immediate medical attention and special treatment needed: No data available

5. FIREFIGHTING MEASURES

5.1 Extinguishing media

- Suitable extinguishing media: For small (incipient) fires, use media such as "alcohol" foam, dry chemical, or carbon dioxide. For large fires, apply water from as far as possible. Use very large quantities (flooding) of water applied as a mist or spray; solid streams of water may be ineffective. Cool all affected containers with flooding quantities of water.
- 5.2 Special hazards arising from the substance or mixture: Carbon oxides, nitrogen oxides (NOx)
- 5.3 Advice for firefighters: Wear self contained breathing apparatus for fire fighting if necessary.
- 5.4 Further information: Use water spray to cool unopened containers.

6. ACCIDENTAL RELEASE MEASURES

- 6.1 Personal Precautions, protective equipment, and emergency procedure: Use personal protective equipment. Avoid breathing vapours, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form explosive concentrations. Vapours can accumulate in low areas. For personal protection see section 8.
- 6.2 Environmental precautions: Prevent further leakage or spillage if safe to do so. Do not let product enter drains.
- 6.3 Methods and materials for containment and cleaning up: Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations (see section 13). Keep in suitable, closed containers for disposal.
- 6.4 Reference to other sections: For disposal see section 13.

7. HANDLING AND STORAGE

- 7.1 **Precautions for safe handling:** Avoid inhalation of vapour or mist. Keep away from sources of ignition No smoking. Take measures to prevent the build up of electrostatic charge. For precautions see section 2.2.
- 7.2 Conditions for safe storage, including any incompatibilities: Keep container tightly closed in a dry and well-ventilated place.
- Containers which are opened must be carefully resealed and kept upright to prevent leakage. Air sensitive.
- 7.3 Specific end use(s): Apart from the uses mentioned in section 1.2 no other specific uses are stipulated

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters

Components with workplace control parameters Contains no substances with occupational exposure limit values.

8.2 Exposure controls

Appropriate engineering controls Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.

Personal protective equipment

Eye/face protection: Tightly fitting safety goggles. Faceshield (8-inch minimum). Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

Skin protection: Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

Body Protection: Complete suit protecting against chemicals, The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

Respiratory protection Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multipurpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

Control of environmental exposure Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties	
a) Appearance	Form: Colorless to pale yellow oil
b) Odor	no data available
c) Odor Threshold	no data available
d) pH	no data available
e) Melting point/freezing point	no data available
f) Initial boiling point and boiling range	72 - 73 °C (162 - 163 °F) at 15 hPa (11 mmHg) - lit
g) Flash point	63 °C (145 °F) - closed cup
h) Evaporation rate	no data available
i) Flammability (solid, gas)	no data available
j) Upper/lower flammability or explosive limits	no data available
k) Vapor pressure	no data available
I) Vapor density	no data available
 m) Relative density 	0.965 g/cm3 at 25 °C (77 °F)
n) Water solubility	no data available
 o) Partition coefficient: n- octanol/water 	no data available
p) Auto-ignition temperature	no data available
 q) Decomposition temperature 	no data available
r) Viscosity	no data available
 s) Explosive properties 	no data available
 t) Oxidizing properties 	no data available
Other safety information:	no data available

10. STABILITY AND REACTIVITY

10.1 Reactivity: No data available

10.2 Chemical stability: Stable under recommended storage conditions.

© CREOSALUS, INC. ALL RIGHTS RESERVED

9.2

9.1

- 10.3 10.4 10.5 10.6
- Possibility of hazardous reactions: No data available Conditions to avoid: Heat, flames, and sparks. Incompatible materials: Oxidizing agents, do not store near acids. Hazardous decomposition products: Other decomposition products no data available. In the event of fire: see section 5

10.6									
11. TOX	ICOLOGICA	L INFORMATION							
11.1	Information on toxicological effects								
	Acute toxicity: No data available								
	Inhalation: No data available								
	Dermal: No data available								
	Skin corrosion/irritation: No data available Serious eye damage/eye irritation: No data available Respiratory or skin sensitization: No data available								
						Germ cell mutagenicity: No data available Carcinogenicity:			
		IARC:	No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirme						
		human carcinogen by IARC.							
ACGIH:		No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potenti carcinogen by ACGIH.							
NTP:		No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinoge by NTP.							
OSHA:		No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potenti carcinogen by OSHA.							
Reproductive toxicity: No data available									
Specific target organ toxicity - single exposure: No data available Specific target organ toxicity - repeated exposure: No data available Aspiration hazard: No data available Additional Information: RTECS: Not available									
	Cough, Shortness of breath, Headache, Nausea, Vomiting								
		IFORMATION
